

## VPCCommand Tip 52 – Insulation Accessories

In order to insure you receive the desired *Insulation Accessories* such as double-faced tape, patch tape, staples, etc. you must input these in the **Accessory** level in the **Insulation** folder of VPCCommand. You may also add these items to your Default files and revise quantities as necessary.

Common items to add are Patch tape and Double-faced tape. Our insulation provider has suggested a formula for the calculation of double-faced tape as follows:

One, 150'-0 roll of 3" wide double-faced tape for every 1,500 square feet of roof area.

### Inserting Insulation Accessories

	<ol style="list-style-type: none"> <li>From the Tree, open the Insulation Folder.</li> <li>Double-click the <b>Accessory</b> folder to open the Accessory window.</li> </ol>
	<ol style="list-style-type: none"> <li>At the Accessory window, click on <b>Insert Row</b> to add rows to the list to select items.</li> </ol>
	<ol style="list-style-type: none"> <li>Click on the <b>newly inserted row</b> and select desired items from the pull-down menu.</li> </ol>
	<ol style="list-style-type: none"> <li>Input the required <b>Qty</b> (quantity). Note that the price will be calculated for you.</li> </ol>
	<ol style="list-style-type: none"> <li>Continue Inserting additional rows and selecting items as needed.</li> </ol>
	<ol style="list-style-type: none"> <li>Click <b>OK</b> when input is complete.</li> </ol>
